

Albuquerque Weekly Citizen.

VOLUME I.

ALBUQUERQUE, NEW MEXICO, SATURDAY, JUNE 13, 1891.

NUMBER 25.

TELEGRAPHIC.

Patterson Will Orate.
Denver June 10.—Hon. T. M. Patterson has agreed to deliver the opening address at the Colorado Mineral Palace at Pueblo on the fourth of July.

A Decoration for a Woman.

London, June 10.—Queen Victoria conferred the Order of the Red Cross de Mrs. Grimwood, for her conduct at Manassas, where her husband, the British political agent, was murdered by the Manassas.

The Delegates of the Priests.

Plymouth, Mass., June 10.—The National Typographical Union's delegates visited this place and were shown the Pilgrim national monument, after which a banquet was given them at the Old Folks opera house.

Was Dedicated.

St. Louis, June 10.—The Pas-de-Calais at Normandy, built at a cost of \$600,000, was dedicated. Father O'Conor of Newark, N. J., provincial of the Passionists' Order, with a number of priests from all over the country, officiated at the ceremony.

The State Landed Arms.

Washington, June 10.—Information has been received in twenty-four hours to the effect that the insurgents—soon to be Rata, before proceeding to Lopou, and from Toepilla, landed at the latter place 5000 rifles and a large amount of supplies.

With His Last Load.

Louisville, Ky., June 10.—Henry Zieckel, a U. S. veteran, killed himself here with the load he last put in his musket during the war. He has been drinking heavily on his pension money, and when he went home early this morning, he sent his little girl good-bye, went to another room and shot himself.

A Track to Lower California.

San Diego, June 10.—A long cablegram announces that contracts have been let for the construction of the proposed railroad from this city to San Quintin, Lower California, a distance of 40 miles. The road is to be built as far as the Mexican government approves the survey. The company is to receive a large subsidy from the Mexican government.

Her Head Cut to Pieces.

Youngstown, Ohio, June 10.—Mrs. John Becker, aged 46 years, wife of a colored barbers, was found murdered in a seat near her home. The murdered woman's head was cut into pieces.

Although there has been several arrests there is no positive clue. It is suspected the crime was committed early in the evening. The woman has been ascertained.

Excitement and Anger in Chile.

Iquique, Chile, June 10.—The decision of Admiral McLean to take the Itata without allowing the discharge of batteries and ammunition caused great excitement here, while the press comments very bitterly upon the matter, and considers that the United States, the cradle of republican ideas, commits a grave mistake in thus indirectly assisting the dictator.

Census Money Running Short.

Washington, D. C., June 10.—There is consternation in the various branches of the census office. It grows out of the fact that the money appropriated to carry on the work is running so low that it has become necessary to reduce the force. It is hinted that between now and July 1st the force is to be reduced at least 1000, which takes in quite a large number of the original appointees, and nearly all of those who were recently given an appointment of three months.

Mad Steers Bite Like Dogs.

Kansas City, June 10.—A short time ago a mad dog bit a steer, one of a herd belonging to Vaudier Bros., residing in Atchison county. The steer was soon afflicted with hydrocephalus, which spread to the remainder of the herd. There were three of the Vaudier brothers, and each one of them was bitten by one of the afflicted animals. One of them died. Today another of the brothers died, and the third is not expected to live more than a day or two at the most.

Passing Spurious Money.

Wilkesboro, Pa., June 10.—Secret service officers arrested Rueben Palmer, a horse trader, on the charge of passing counterfeited money. A complete counterfeiter's outfit was found on the premises.

For some time the country in the vicinity of Hornsville, Elmira and Troy, has been flooded with spurious coin. The government put the secret service officers on the case, and they traced the counterfeits to Palmer.

A Bloody Massacre.

Port au Prince, June 11.—The massacre of St. Bartholomew sinks in to insignificance beside that enacted here in the last few days. For the last two or three weeks there have been rumors that a revolution against Hypolite was imminent in the capital, and these, having reached the ears of the chief executive, he caused the arrest of about eighty suspected persons, dragged them from their homes and put them in confinement. Among the suspected was a general in the army, who, hearing that he was wanted, hid himself, and his wife was taken instead and thrown into prison.

The outbreak of rebels occurred Thursday, May 28. While President Hypolite was attending church, a former cabinet minister, at the head of eighty followers, well armed, stormed the prison and re-

leased 200 political and other prisoners. The released prisoners were provided with arms, and when Hypolite's troops arrived on the scene there was a bloody battle. Hypolite remained in the church all day guarded by soldiers. He called out the reserve militia and the rebels were soon routed. The leader of the rebels, the former cabinet minister, was captured and shot at once. Thursday four of the rebels had been captured and put to death. Others were captured and shot on Friday, Saturday and Sunday. Every man suspected of being sympathetic with the insurgents was put to death without trial and soon all were captured. Most of the 200 prisoners released from jail by the insurgents were recaptured and shot.

Chile Will Participate.

Washington, June 11.—The Latin-American department of the World's Columbian exposition has received a cablegram from Lieutenant Harlow, special commissioner, in which he announced that the government of Chile accepted the invitation to participate in the exposition at Chicago and that commissioners will be appointed at once. Chile will erect her own building at Chicago and has asked that an acre of space be reserved for her. The government will send a military band and will make an appropriation of \$100,000 to pay the preliminary expense.

Denver's Record.

Denver, June 11.—Ex Policeman Jas. Jones met his wife walking with T. J. Strawn, on California street, and after quarreling with him for a moment, drew his revolver and shot Strawn dead. Jealousy was the cause, although there seemed to be no grounds. The murderer was arrested, but refused to say a word about the affair.

Blaine the Star.

Seattle, Wash., June 11.—General Edward G. Alger, of Michigan, arrived here. In an interview he said: "If Mr. Blaine indicates to the republican party that he will be a candidate for president, I believe he will be nominated in a moment. I believe he will be the strongest man in the republican party."

Minister Porter.

Washington, June 12.—It is denied positively at the state department that Mr. Porter, our minister to Italy, has been recalled. Some time before the New Orleans episode Minister Porter took a leave of absence but delayed his departure from Italy on account of the negotiations resulting from that affair. He has now been constantly on duty in Rome for considerably more than a year, which is not usual in the ministerial service. It is stated that he will not leave Europe but nevertheless there is reason to believe that his leave of absence from Rome will be so indefinite as to warrant him in delaying his return to his post until some steps have been taken by the Italian government looking to the return of its minister to the United States.

The editor of the Springer Stockman Sojourner was not recalled, but was simply granted an indefinite leave of absence. This is precisely the state of affairs which existed between the United States and Austria when we refrained sometime from sending a minister to Austria to replace Mr. Kelly, whom the Austrian government refused to receive. Of course the officials of the state department are unwilling to admit any such significance to be given to Porter's absence from Rome but there are diplomatic reasons which should exist without an official statement of the reasons which must be left to implication.

Times of Tribulation At Hawaii.
San Francisco, Cal., June 12.—The decision of Admiral McLean to take the Itata without allowing the discharge of batteries and ammunition has caused great excitement here, while the press comments very bitterly upon the matter, and considers that the United States, the cradle of republican ideas, commits a grave mistake in thus indirectly assisting the dictator.

Steamer Australia.
Kansas City, June 10.—A short time ago a mad dog bit a steer, one of a herd belonging to Vaudier Bros., residing in Atchison county. The steer was soon afflicted with hydrocephalus, which spread to the remainder of the herd. There were three of the Vaudier brothers, and each one of them was bitten by one of the afflicted animals. One of them died. Today another of the brothers died, and the third is not expected to live more than a day or two at the most.

Passing Spurious Money.
Wilkesboro, Pa., June 10.—Secret service officers arrested Rueben Palmer, a horse trader, on the charge of passing spurious coin. A complete counterfeiter's outfit was found on the premises.

For some time the country in the vicinity of Hornsville, Elmira and Troy, has been flooded with spurious coin. The government put the secret service officers on the case, and they traced the counterfeits to Palmer.

A Bloody Massacre.
Cape May, June 12.—Mayor Edmunds opened the convention of the car drivers. President John Kirby made an address outlining the work of the convention. The committee's reports were received, discussed and acted upon.

In view of national legislation much interest is focused upon the exhibits of car and engine couples, ten of these devices being on view. Working models of steam heating plants are being exhibited. The exhibit is regarded as the most complete ever given by the association.

A car load of Standard sewing machines—the best manufactured—arrived this morning for F. W. Heyn. These machines are meeting with universal success wherever used.

A Cyclone in Dakota.

Minneapolis, June 12.—A special to the Tribune from Pierre, S. D., says a terrible windstorm struck the city. It was accompanied by a blinding storm of dust which left the city in total darkness. The storm lasted twenty-five minutes. To add to the phenomena, the temperature fell almost to freezing point and unless a change takes place soon, a damaging frost will be the result.

TERRITORIAL.

Las Cruces has an excellent gun club. Judge S. B. Atwell has been ill at Santa Fe.

The Raton school fund amounts to \$8,000 per year.

The Delgado election case is in progress at Santa Fe.

Richard Green of Cerrillos, caught trout in the Pecos.

Jim Johnson has planted 30 acres of potatoe near Chama.

Clara, the wife of Andrew Kopp, died at Santa Fe, aged 37 years.

Game of every description is becoming more plentiful in New Mexico.

Geo. Knobell declines to become a candidate for mayor, at Santa Fe.

C. M. Conklin has been appointed one of the commissioners of Santa Fe County.

Gustave A. Schmidt, who resided in Santa Fe eight years ago, died in Long Island.

Secretary H. M. Thomas and family, of Santa Fe, at Espejo, Ind., visiting relatives.

The alfalfa crop in the Pecos Valley this year will probably be the finest ever harvested.

Dick Dixon is back in Santa Fe from his extended trip to the old folks at home in Illinois.

Hon. G. A. Richardson proposes to start the ball rolling for a grand fair in Roswell next year.

A large quantity of wool will be shipped from Edmond this spring if the indications amount to anything.

Col. P. R. Smith reports the surveys for his Monroe valley irrigation project progressing and in good shape.

C. T. Brown is having the building formerly occupied by Price Bros. & Co., at Socorro, fitted up and repaired.

Five carloads of red sandstone from Flagstaff will be used for trimming the school of mines building at Socorro.

Work is being pushed on the Flagler reduction works at Silver City. They expect to be at work within a month.

Ex Mayor Henry, of Las Vegas, says poor water service is responsible for too many costly fires in New Mexico towns.

Baton has two building and loan associations—the Columbia and Baton—each in a prosperous and satisfactory condition.

The grand jury in Grant county indicted the old board of county commissioners for not publishing their proceedings.

Grape cuttings set out this spring within a mile of Eddy, have grown from twelve to eighteen inches of new wood already.

Harry Booth is now alone in the postmanship at Fort Bayard, having bought out John Brockman's interest in the business.

The editor of the Springer Stockman Sojourner was not recalled, but was simply granted an indefinite leave of absence. This is precisely the state of affairs which existed between the United States and Austria when we refrained sometime from sending a minister to Austria to replace Mr. Kelly, whom the Austrian government refused to receive. Of course the officials of the state department are unwilling to admit any such significance to be given to Porter's absence from Rome but there are diplomatic reasons which should exist without an official statement of the reasons which must be left to implication.

Times of Tribulation At Hawaii.
San Francisco, Cal., June 12.—The steamer Australia, from Honolulu, brings news that the gripe is epidemic in the islands, and that in the leper settlement nine-tenths of the lepers are down with it. Water is very scarce in the country, and when the Australia left the reservoirs were nearly empty. If no water has fallen since a water famine must now prevail.

A few hours before the Australia sailed the government warehouse took fire, and smoke could be seen issuing from the burning structure when the steamer was sixty miles at sea. The loss is estimated at over \$200,000.

The Railroad Exhibit at Cape May.
Cape May, June 12.—Mayor Edmunds opened the convention of the car drivers. President John Kirby made an address outlining the work of the convention. The committee's reports were received, discussed and acted upon.

In view of national legislation much interest is focused upon the exhibits of car and engine couples, ten of these devices being on view. Working models of steam heating plants are being exhibited. The exhibit is regarded as the most complete ever given by the association.

A car load of Standard sewing machines—the best manufactured—arrived this morning for F. W. Heyn. These machines are meeting with universal success wherever used.

A Cyclone in Dakota.
Minneapolis, June 12.—A special to the Tribune from Pierre, S. D., says a terrible windstorm struck the city. It was accompanied by a blinding storm of dust which left the city in total darkness. The storm lasted twenty-five minutes. To add to the phenomena, the temperature fell almost to freezing point and unless a change takes place soon, a damaging frost will be the result.

James Sears, of the south end of the city, is agitating the feasibility and advisability of opening up Second street through the lands of the Apodocas to Riverside. He is securing names to a petition which will be presented to the board of aldermen next Wednesday night.

Richardson's Cyclone.
Minneapolis, June 12.—A special to the Tribune from Pierre, S. D., says a terrible windstorm struck the city. It was accompanied by a blinding storm of dust which left the city in total darkness. The storm lasted twenty-five minutes. To add to the phenomena, the temperature fell almost to freezing point and unless a change takes place soon, a damaging frost will be the result.
